

ECO GARDENER VIRTUAL WEBINAR

These virtual classes will teach participants about water efficiency and sustainable gardening through three topic areas. There will be a live instructor to answer any questions you have. Sign up today to receive a link to the class!

WHERE: Online, from the comfort of your home

MARCH 14
TUESDAY

LEAK DETECTION
6PM - 7PM

Irrigation leaks just the size of a dime will waste nearly 6,300 gallons of water per month. With the proper training and tools, leaks can be fixed before they become a costly issue!

MARCH 21
TUESDAY

SUSTAINABLE LANDSCAPE DESIGN
6PM - 7PM

Look to nature for the answer! This class explores the philosophy of natural watershed design which uses minimal resources while increasing the aesthetics, and possibly the value, of your property.

MARCH 23
THURSDAY

EDIBLE GARDENING
6PM - 7PM

Turn part of your ordinary landscape into a lush edible garden. Use your water in a way that will benefit you and your family while creating a sustainable environment that you can be proud of.
