ECO GARDENER VIRTUAL CLASS with Q&A

WHERE: Online, from the comfort of your home

WHEN: Wed, Dec 9th 5pm - 6pm

WINTER GARDENING CLASS

In coastal Southern California, we are lucky to garden year-round. For native plants in the region, the wet winter months is like their springtime!

This class helps participants make a plan for winter gardening and leaves plenty of time for questions from the audience. From pruning and modified watering schedules, to planting your new CA native plants, we'll teach you how to put the winter months to good use!
