Make your garden the envy of your neighbors while simultaneously saving water and creating a productive ecosystem! The WRD Eco Gardener program teaches homeowners about the multiple benefits of planting a sustainable garden through a series of three classes. Whether you attend one or attend all three, you’re certain to walk away with knowledge about sustainable design concepts as well as plant and material selections for creating an attractive, water efficient garden.

WHERE:
Southeast Rio Vista YMCA at Maywood Center
4801 East 58th Street
Maywood, CA 90270

9am-12pm  SUSTAINABLE LANDSCAPE DESIGN
Look to nature for the answer! This class explores the philosophy of natural watershed design which uses minimal resources while increasing the aesthetics, and possibly the value, of your property.

9am-12pm  EDIBLE GARDENING
Turn part of your ordinary landscape into a lush edible garden. Use your water in a way that will benefit you and your family while creating a sustainable environment that you can be proud of.

9am-12pm  IRRIGATION BASICS
Learn how to get the most out of your irrigation system so that we can conserve water, live more sustainably, and save money on our water bills while we’re at it.
